

Nilofer Mubeen

DATA SCIENTIST

nilomubeen@gmail.com

+91-9500026279

SUMMARY

Passionate Data Science enthusiast, skilled in data analysis, statistical modeling, and machine learning. Proficient in python, with hands-on experience in data manipulation, cleaning, and visualization. Strong problem-solving abilities and a passion for extracting actionable insights from complex datasets.

PROJECTS

AI-Powered Text to PyMongo Query Generator

Pandas, Streamlit, Langchain_groq, Pymongo

Developed an automated data query and retrieval system using large language models (LLMs) to dynamically generate mongodb queries from user inputs.

<https://github.com/nilofermubeen/AI-Powered-Text-to-PyMongo-Query-Generator/tree/main>

Smart connect AI - Cold-Email-Generator

Groq, LangChain, Streamlit, Vector Database(Chromadb)

Designed an AI-driven tool tailored for service companies that automates cold email generation by extracting job listings from career pages.

https://github.com/nilofermubeen/SmartConnect-AI_Cold_email_generator

Smart Banking System

Python, PostgreSQL, Streamlit

The primary aim of the project is to develop an intelligent banking application that integrates standard banking operations with personalized financial analysis.

https://github.com/NiloferMubeen/Banking_Simulation_system

CarDekho Used Car Price Prediction

Pandas, Numpy, Feature importance, Regression algorithms, Hyper Parameter tuning, PowerBI

The primary aim of this project is to develop a robust data science model capable of accurately predicting the prices of used cars.

SKILLS

- Python
- Pandas
- Numpy
- Scikit-learn
- Machine learning
- Deep learning
- Artificial Intelligence
- NLP
- PostgreSQL
- MongoDB
- PowerBI
- Tableau
- Matplotlib
- Seaborn
- Plotly

EDUCATION

IIT-M 2024

Professional & master data Science

B.E

ANNA UNIVERSITY

Electronics and Communication Engineering
